

NCU Summer 2017 Challenges

Make Ice Cream

Create your own ice cream, try using different ingredients to make various flavours and food colouring for a mixture of coloured ice creams. For a basic recipe click here -

<http://www.pbs.org/parents/kitchenexplorers/2014/07/15/super-simple-ice-cream-recipe/>
(1 credit).

You can earn another credit if you run your very own ice cream shop/van and sell your ice creams to friends and family.

Write a poem

Write a poem about what activities you have been doing over the summer holidays, this could be a haiku, a limerick, a sonnet or any type of poem, (1 credit). If you write up, or type up your poem and add drawings or pictures to go with it and share your creations with us, either via email or on our Facebook page you can earn another credit. There may even be a prize for the most creative poem.

Water Game Olympics

Plan an afternoon of outdoor water games such as sprinkler limbo or water bomb tennis. alternatively you could create a basic outdoor obstacle course that incorporates a sprinkler, water balloons, and buckets? Plan your olympics by making a poster to show what games it will involve, then set up your water game olympics and have fun, (1 credit).

You can earn an additional credit if you share your poster or photos of your games with us via Facebook or email.

Do a colour scavenger hunt

Pick 8 colours and with your friends/ family go to a local park, into your garden or maybe even around the house and find things in these colours. Once you have one item to match each colour, either draw the items on a sheet of paper or take photos and create a collage. (1 credit)

Make your own Geode Crystals

Have you ever wanted to know how real-life geodes are formed in igneous and sedimentary rock? Make your own geode crystals using this link for directions - <https://sciencebob.com/eggshell-geode-crystals/>
(1 credit)

Get creative with materials from around the home

Make something that symbolises summer for you, using materials from around the home. For example, summer for you might be all about being outside on your bicycle with your friends, so you could make a mini bike using straws, elastic bands and cardboard. Please share your wonderful creations with us. (1 credit)
