

# Winter Activities 2017

Try your hand at science this winter. You could blow bubbles outside when its 0 degrees and watch them freeze right before your eyes or perhaps you could make instant ice -

82. Whatever science fun you have please share this with us. Send us photos or tell us about it!

**I credit**

Make a traditional winter meal or sweet treat  
**I credit**

Research how other countries celebrate new years. One country drops molten lead into cold water to see what shape is formed and believes it predicts the future. Present your findings as a poster.

**I credit**

Create a scrapbook about animals that hibernate, explain why they hibernate and include some fun facts about each animal.

**I credit**

Make a Christmas wreath

With Christmas around the corner this is a time for giving. Do something for someone else, a kind deed or gesture. This could be making a shoe-box for the "Samaritans Purse" scheme, volunteering with your family at a soup kitchen or making a card or gift for a neighbour.

**1 credit**

**Snowglobes!**  
Choose between making an actual snow globe, snow globe cookies or a poster. You can earn an extra credit by sharing your creations with us

**up to 2 credits**

Build a famous landmark of somewhere in your city/town/village or your favourite landmark from around the world using items from your home. Write a description of your landmark.

**1 credit**

Write a poem about why you like Children's University. You could include your favourite learning destination and how you have been earning credits.
