

Sycamore Class 2021

Autumn 2021

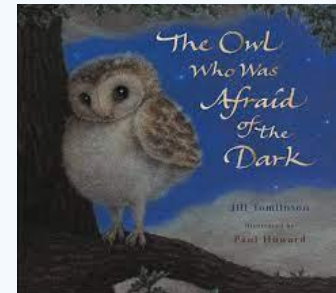

Owl Experience Day- To prepare us to go on an adventure with Plop as he conquers his fear of the dark, we had an owl experience day to learn all about owls.

Plop's had a lot of experiences so far...

Fireworks – paper and natural collage

Bonfire Experience Day! – “It smells like right after you blow your birthday candles out” – Amelia

...and we've joined in with them all.

Sycamore Class 2021

Fly High!

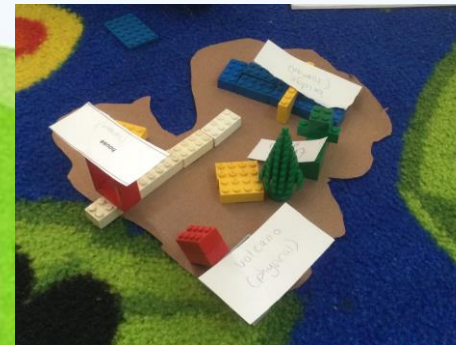

Flying our Japanese kites.

In October we celebrated Wear Red Day- Show Racism the Red card. We linked this to our topic by learning how to make a Japanese kite design. We showed Racism the Red card by learning to respect the different ideas of other cultures.

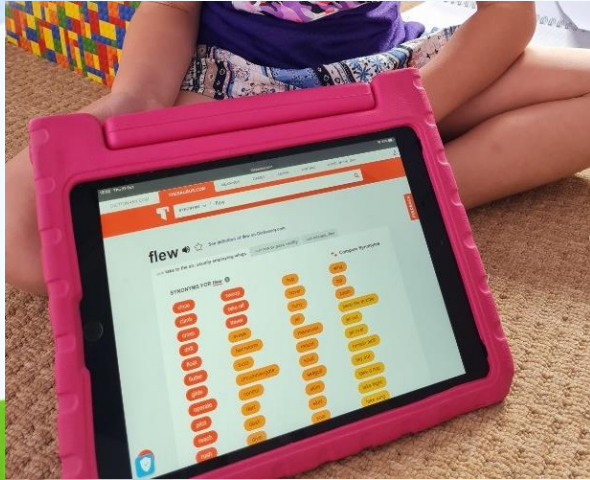

What would it be like to fly high like the Wright Brothers, only to discover our very own island? As part of our Geography topic we designed our imaginary islands, considering whether features are physical or human. Here are some of our islands.

E-safety is a vital part of safeguarding. We have learned about how to be safe online and with any media. Here are some top tips from our e-safety champions.

Sycamore Class 2021

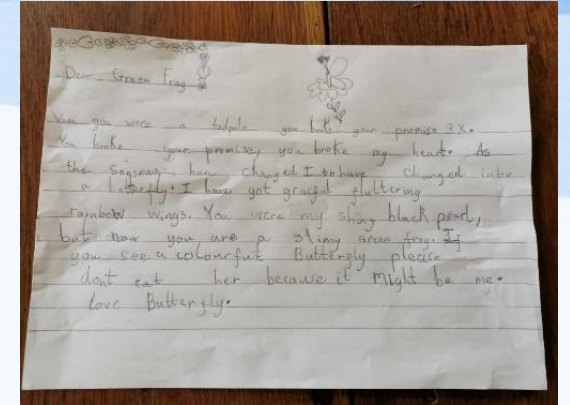

Home Learning
Autumn 2021

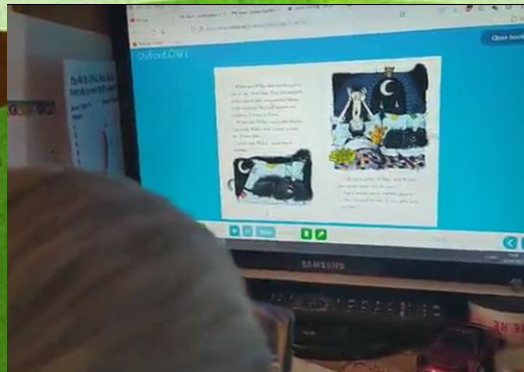

We used household objects to help with our maths.

Real world examples helped us to understand money and equivalencies in value.

Online books helped us keep up with our reading at home.

Real maths...real coins!
