Star Class Newsletter

Summer 2 - 2023

abc

Welcome to the home stretch of the school year. Star class has been busy with so many exciting activities and events including sports day, transition events for our Year 2s and gearing up for our upcoming trips. This part of the year is such a special time as we get to enjoy our last weeks as a star team and prepare ourselves for our next year group.

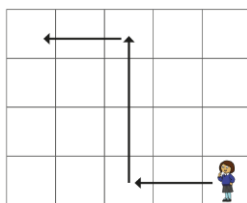

Maths

In Year 1 we have been learning about money. We have

developed our understanding of the different coin values and have been using this understanding to practice buying things from a shop.

In Year 2 we have been learning about position and direction. Can you describe Kim's movement around the grid?

Music

In Music, we performed 'Twinkle Twinkle Little Star', with our ocarinas, for our fellow pupils. We are all very proud of

being able to perform our first concert. Do not miss watching this wonderful event on Tapestry. It was lovely hearing our friends sing along.

History

We have begun to learn about King James II as we prepare to go on our trip to the museum to learn about the HMS Gloucester. We have been using our inference and deduction skills to see what we can predict about both our past and present kings.

Please remember to wear PE kit on Wednesdays and Fridays, and have your piercings covered. Please make sure to have named wellies, coats and water bottles in school for outdoor learning/playtimes every day.

As the weather is so good currently, please ensure your child has a sun hat in school and sun cream applied before school.
